

# DRAFT Agenda

## R&I priorities strategy Agendas for a common path toward Energy Transition in 2050

---

### Webstreaming

**18th June 2020**  
**Time: 14.15 – 17.00**

## Virtual Workshop concept and scope:

ETIP SNET strongly believe that collaboration among all sectors of the energy system is crucial to meet the 2030 and 2050 targets set up by then European Commission toward the energy transition.

In order to strengthen the already existing collaboration and to create new links with other ETIPs and PPPs (and future Partnerships under Horizon Europe), ETIP SNET hosts a virtual workshop with: ETIP Wind, ETIP PV, ETIP RHC, ETIP BATTERIES, ETIP DEEP GEOTHERMAL, PPP SPIRE, EFFRA, EGVI, FUTURE INTERNET, CYBERSECURITY, CET, and European Associations ENTSO-E, E.DSO, FACTORY OF THE FUTURE, ERANET REGSYS, ESMIG, T&D EUROPE, EMIRI, EASE AND EERA.

As key industry-led communities along the innovation chain, each ETIP and PPP (and the future Partnerships) are contributing to identifying R&I priorities for medium- and long-term strategies.

In view of defining the specification for all R&I needs for the energy transition in Europe and for meeting the goals of the Green Deal, ETIP SNET strongly believes that this virtual workshop is a great and unique occasion for ETIPs and PPPs to meet, present and match their own R&I priorities / Strategic Agendas, with the **specific aim to share among the participants the priorities identified by ETIP SNET in the 10year Roadmap and Implementation Plan 2021-2024, and the R&I priorities of the invited ETIPs and PPPs and see how their priorities can connect with ETIP SNET priorities and support and collaborate toward the energy transition in 2030-2050.**

In this context, ETIP SNET will present in a virtual plenary session its R&I Roadmap 2020-2030 with identified R&I priorities and the range of impacts suited to achieve a specific purpose, called Functionalities, that have been used as basis for the ETIP SNET R&I Implementation Plan 2021-2024 published mid-May. Five Virtual Parallel sessions will be organised to discuss about common proprieties and way to collaborate and interact. A final virtual plenary session will end the workshop during which each parallel session will present its outcomes and they will be used as base for drafting a common ETIPS and PPPs statement/report within 3 weeks after the event, and presented to the EC as outcome of this workshop.

## VIRTUAL PLENARY SESSION

|               |   |
|---------------|---|
| 14h15 – 14h25 | Welcome of attendees, AGENDA and explanation of the Virtual workshop tool – Maria Laura Trifiletti (ETIP SNET Coordinator)                          |
| 14h25 – 14h30 | Opening speech - <b>Guido Guida</b> (ETIP SNET Chair)   |
| 14h30 – 14h40 | Keynote speech - <b>Mark Van Stiphout</b> (Deputy Head of Unit - Research and Innovation at DG Energy C2)   |
| 14h40 – 15h00 | ETIP SNET presentation of 10 Years R&I Roadmap 2020-2030 - <b>Michele De Nigris</b> (Director Sustainable Development and Energy Sources - RSE SpA) |

### Virtual Parallel sessions

15h00 – 16h00

General introduction by the supporting Core team: Explain the different Functionalities

| The Efficient and Flexible Organisation of Energy Systems<br>(F1 – Cooperation, F2 - Cross sector, F3 - Subsidiarity) | Markets as key enablers of the energy transition<br>(F4 -Wholesale, F5 - Retail)    | Digitalisation enables new services for integrated energy systems<br>(F6 - Digitalisation) | Infrastructure for integrated energy systems as key enablers of the energy transition<br>(F7- Networks, F8 - Business, F9 - Simulation) | Efficient Energy use<br>(F10 - Flexibility, F11 - Heating and cooling, F12 - Transport)  |
|---|---|--|---|--|
